Agenda

- **IT Governance.**
- **The foundations of my COBIT feedback.**
- **Provide a comprehensive framework for the governance of IS.**
- **Feed practices into the framework.**
- **Make coherence between BSC and IT Governance.**
- **The Road Map to IT Governance.**
- **Two possible strategies.**
- **Organize your IT Governance**
- **Install a Steering, Monitoring and Evaluation System.**
- **Benchmark your IT Governance.**

IT Governance.

Enterprise Governance, IT Governance, Cobit.

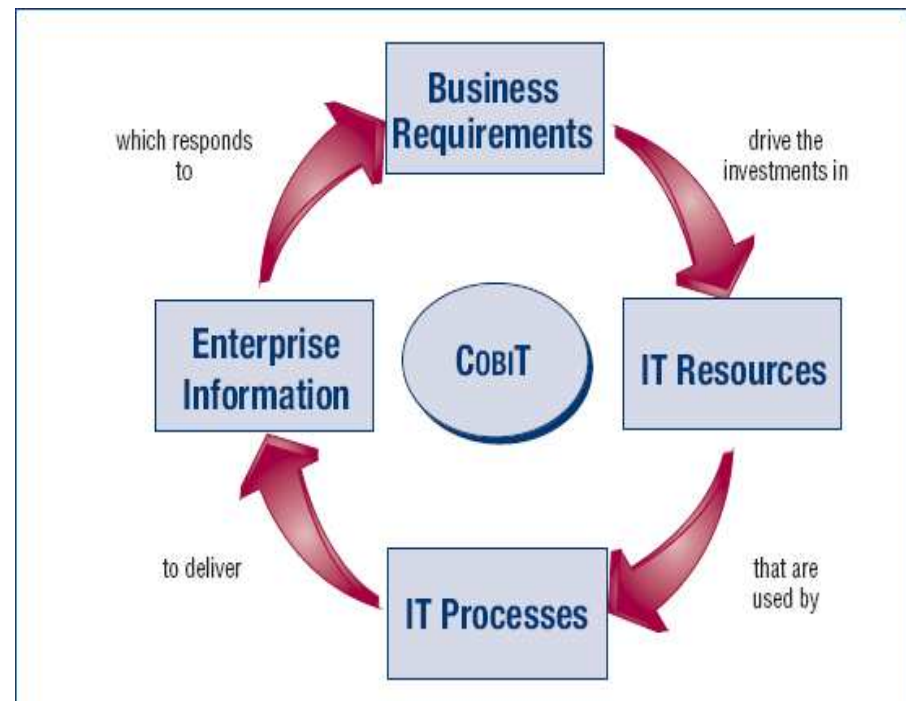

IT Governance.

IT Governance by the IT Governance Institute.

www.itgi.org

- IT governance is the responsibility of executives and the board of directors, and consists of the leadership, organisational structures and processes that ensure that the enterprise's IT sustains and extends the organisation's strategies and objectives.

The foundations of my COBIT feedback.

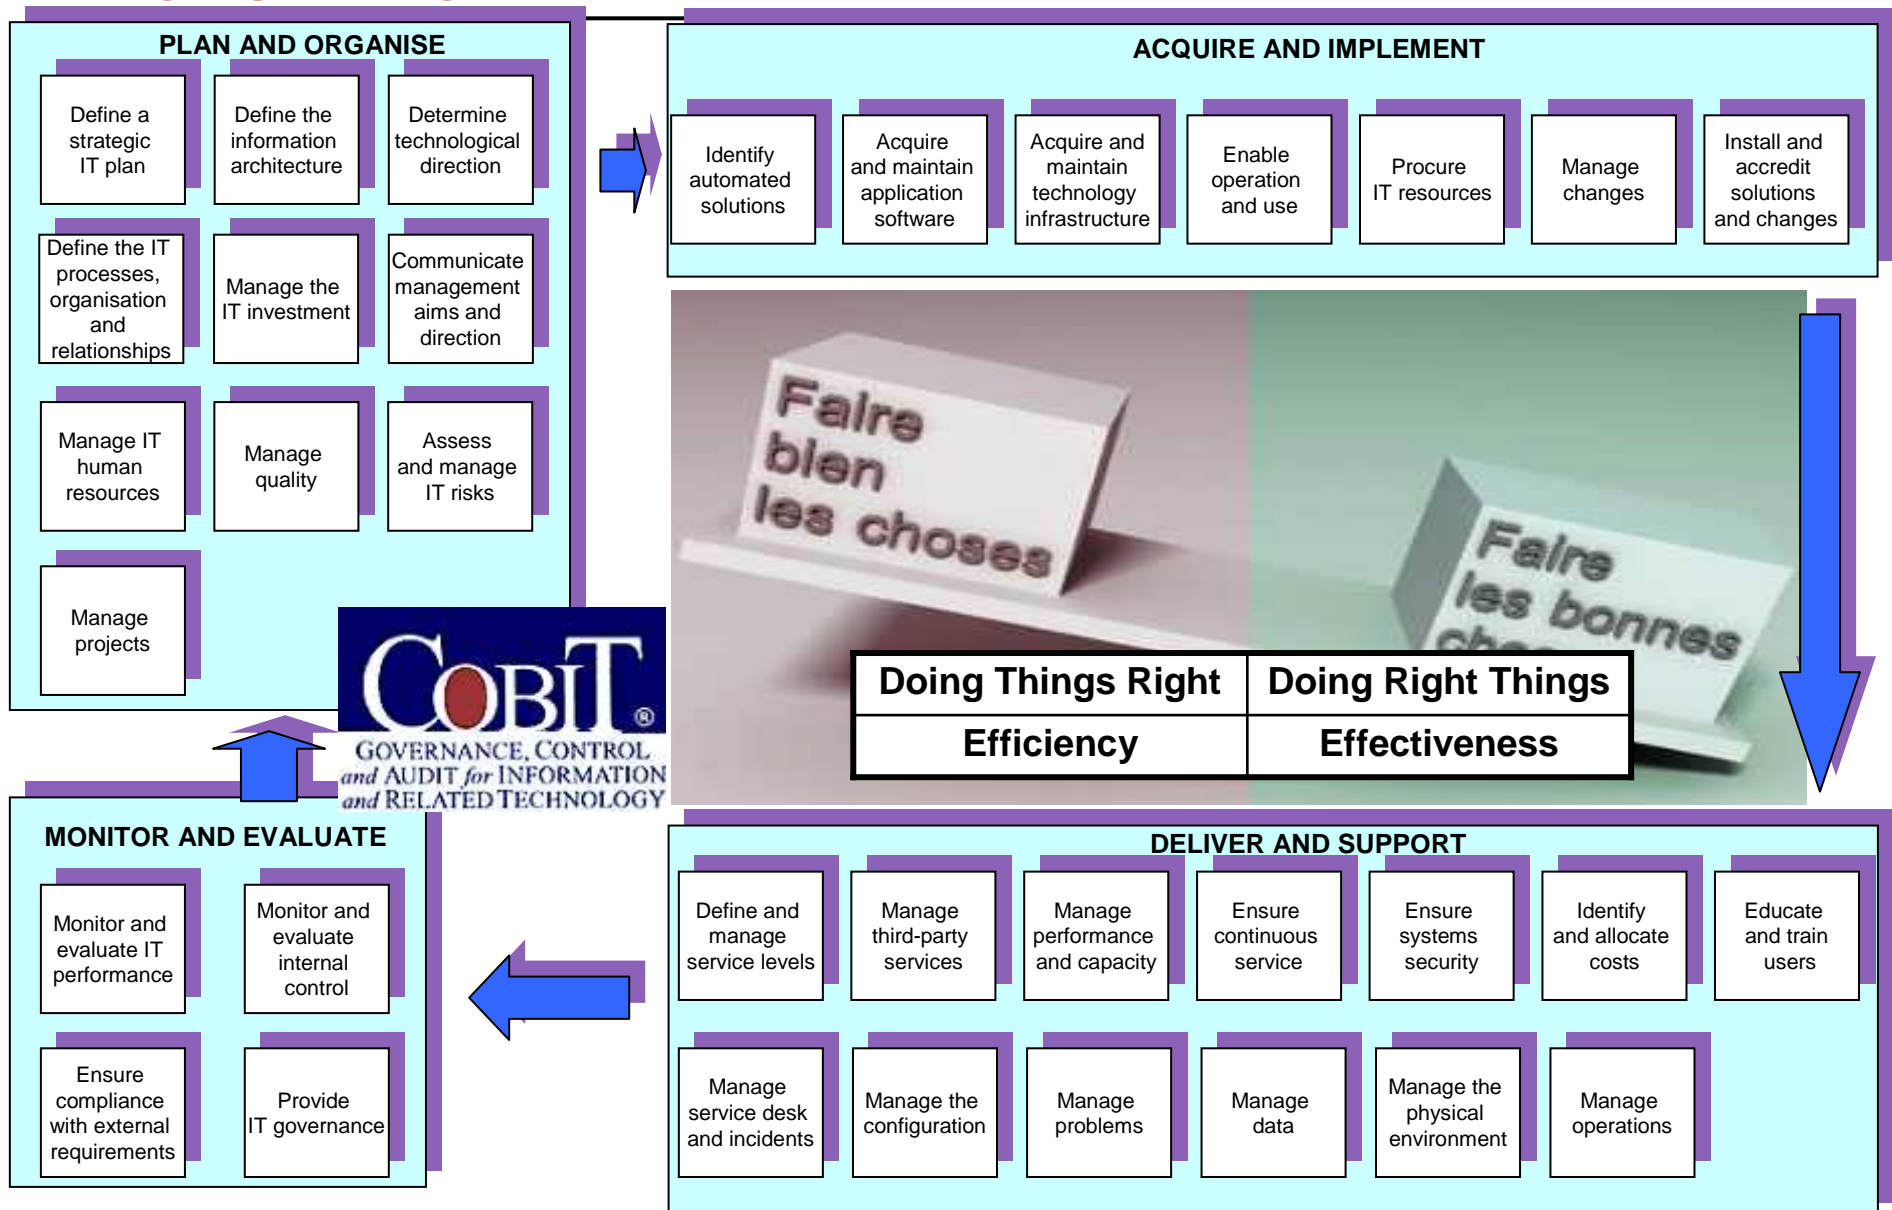

<u>COBIT=</u>	<u>Enterprise</u>	<u>Sector</u>	<u>Background</u>	<u>Approach</u>	<u>My position</u>
Common language of IT.	Arcelor (Paris)	Industry	International merging of 3 equals partners.	Bottom Up. Network of 50 top IT managers.	Group IT Governance Officer.
IT Governance framework.	SMABTP (Paris)	Insurance	Solvency 2. Commissaires aux comptes	Initiated and driven by the CIO.	External Consultant.
IT Governance framework.	Mairie de Rueil-Malmaison	Local Government.	Specification and planning of IT Governance.	Initiated by the CIO.	External Consultant.
Risk framework.	Usinor (Paris)	Industry	Identify and manage risks.	Top Down.	Responsible of Group Information Management.
Risk framework.	Magotteaux (Liège)	Industry	Shareholder change. Risk identification.	Initiated by CEO and reported to him.	Transition Management of the IS.
Framework of roles and responsibilities	La Citadelle (Liège)	Healthcare	Reorganize roles in relation to IS. (Business and IT)	Initiated by General Manager.	CIO, transition management.
Framework of a professional certification.	ISACA / ITGI (IT Governance Institute)		www.isaca.org/cgeit	Grandfathering provision.	CGEIT® (Certified in the Governance of Enterprise IT®)
Governance tool of the IS.	HEC et Ecole des Mines (Paris).	Education	Mastères (Spécialisé & Executive) « Management des Systèmes d'Information et des Technologies ».		Animation of workshops.

PLANIFICATION STRATÉGIQUE ET MANAGEMENT
DU SYSTÈME D'INFORMATION

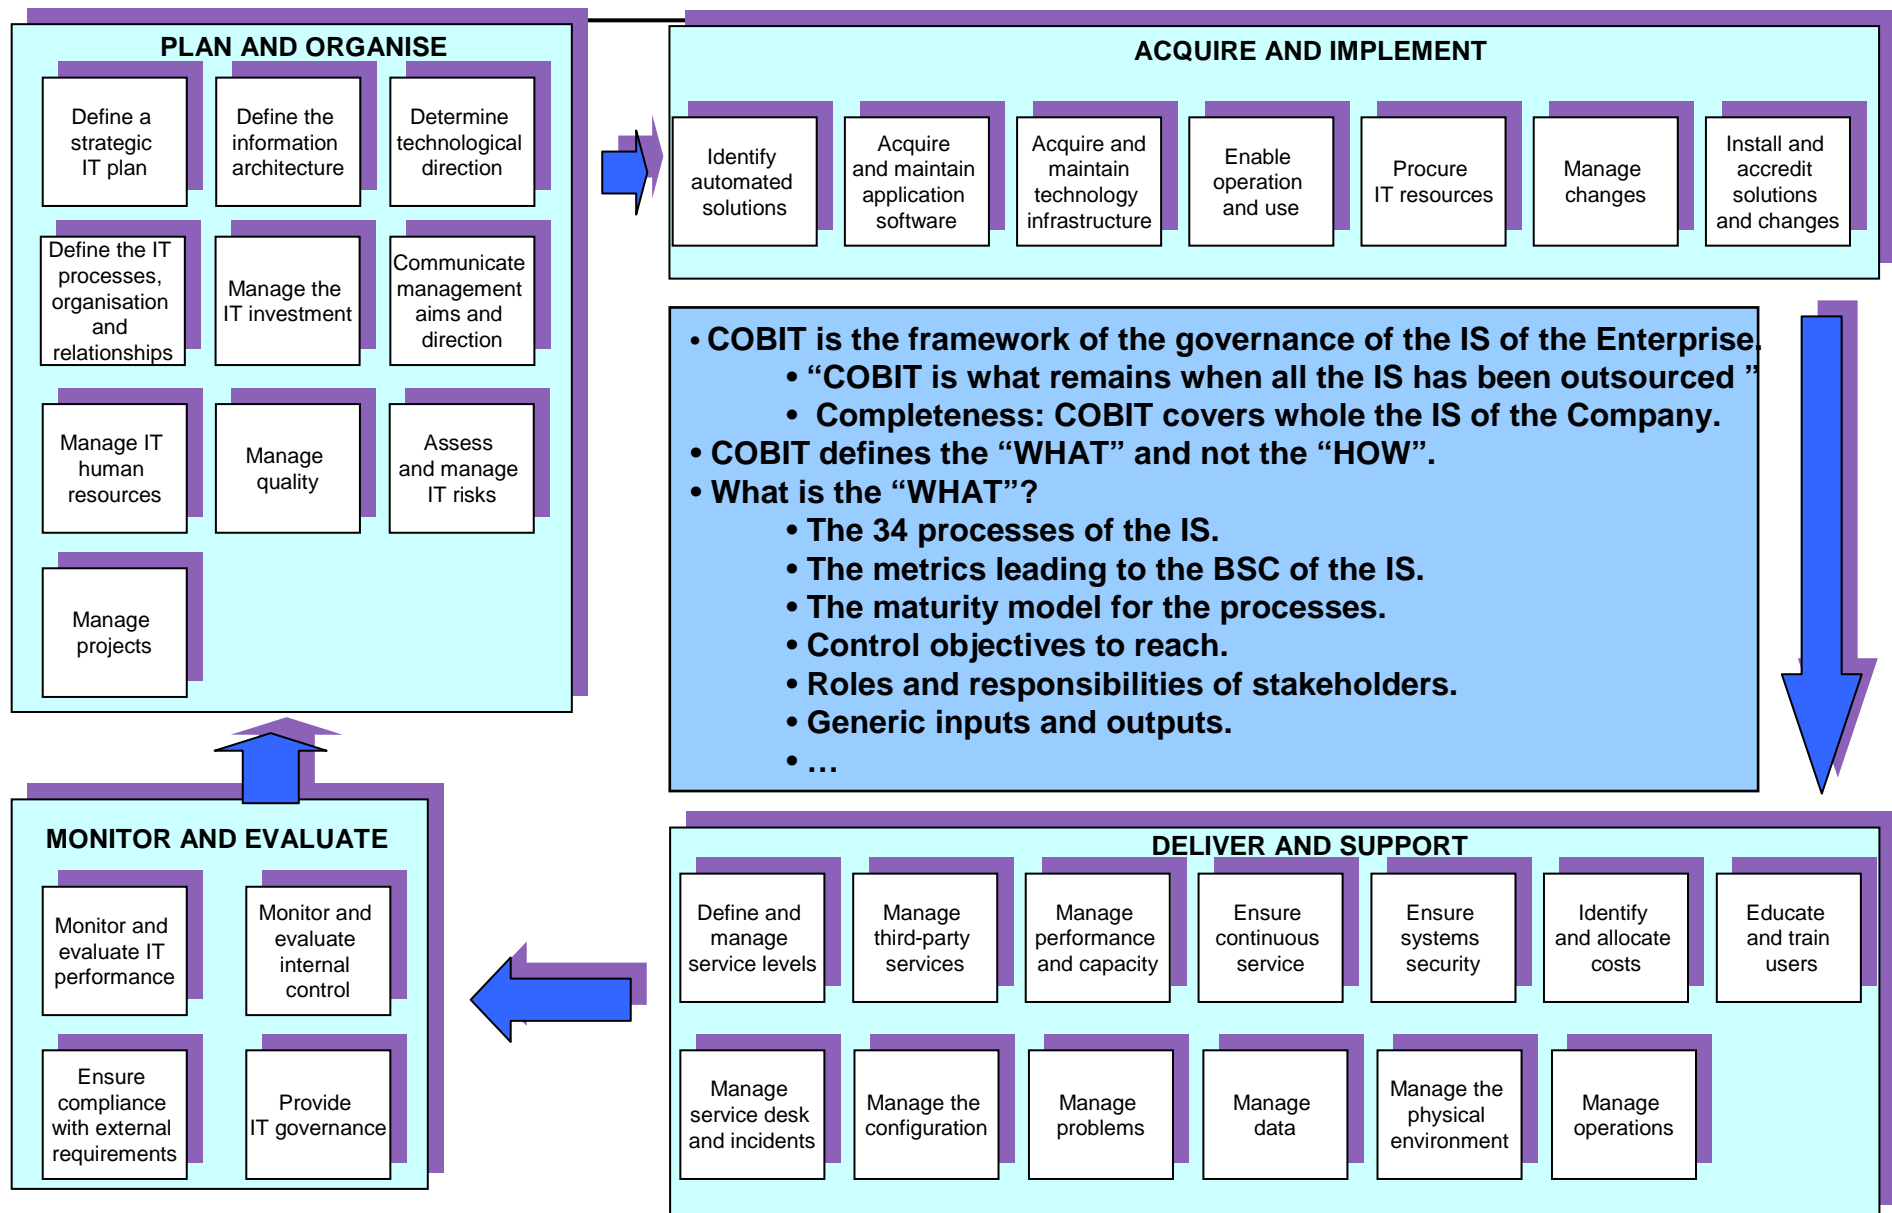

Provide a comprehensive framework for the governance of IS

« Doing Right Things »

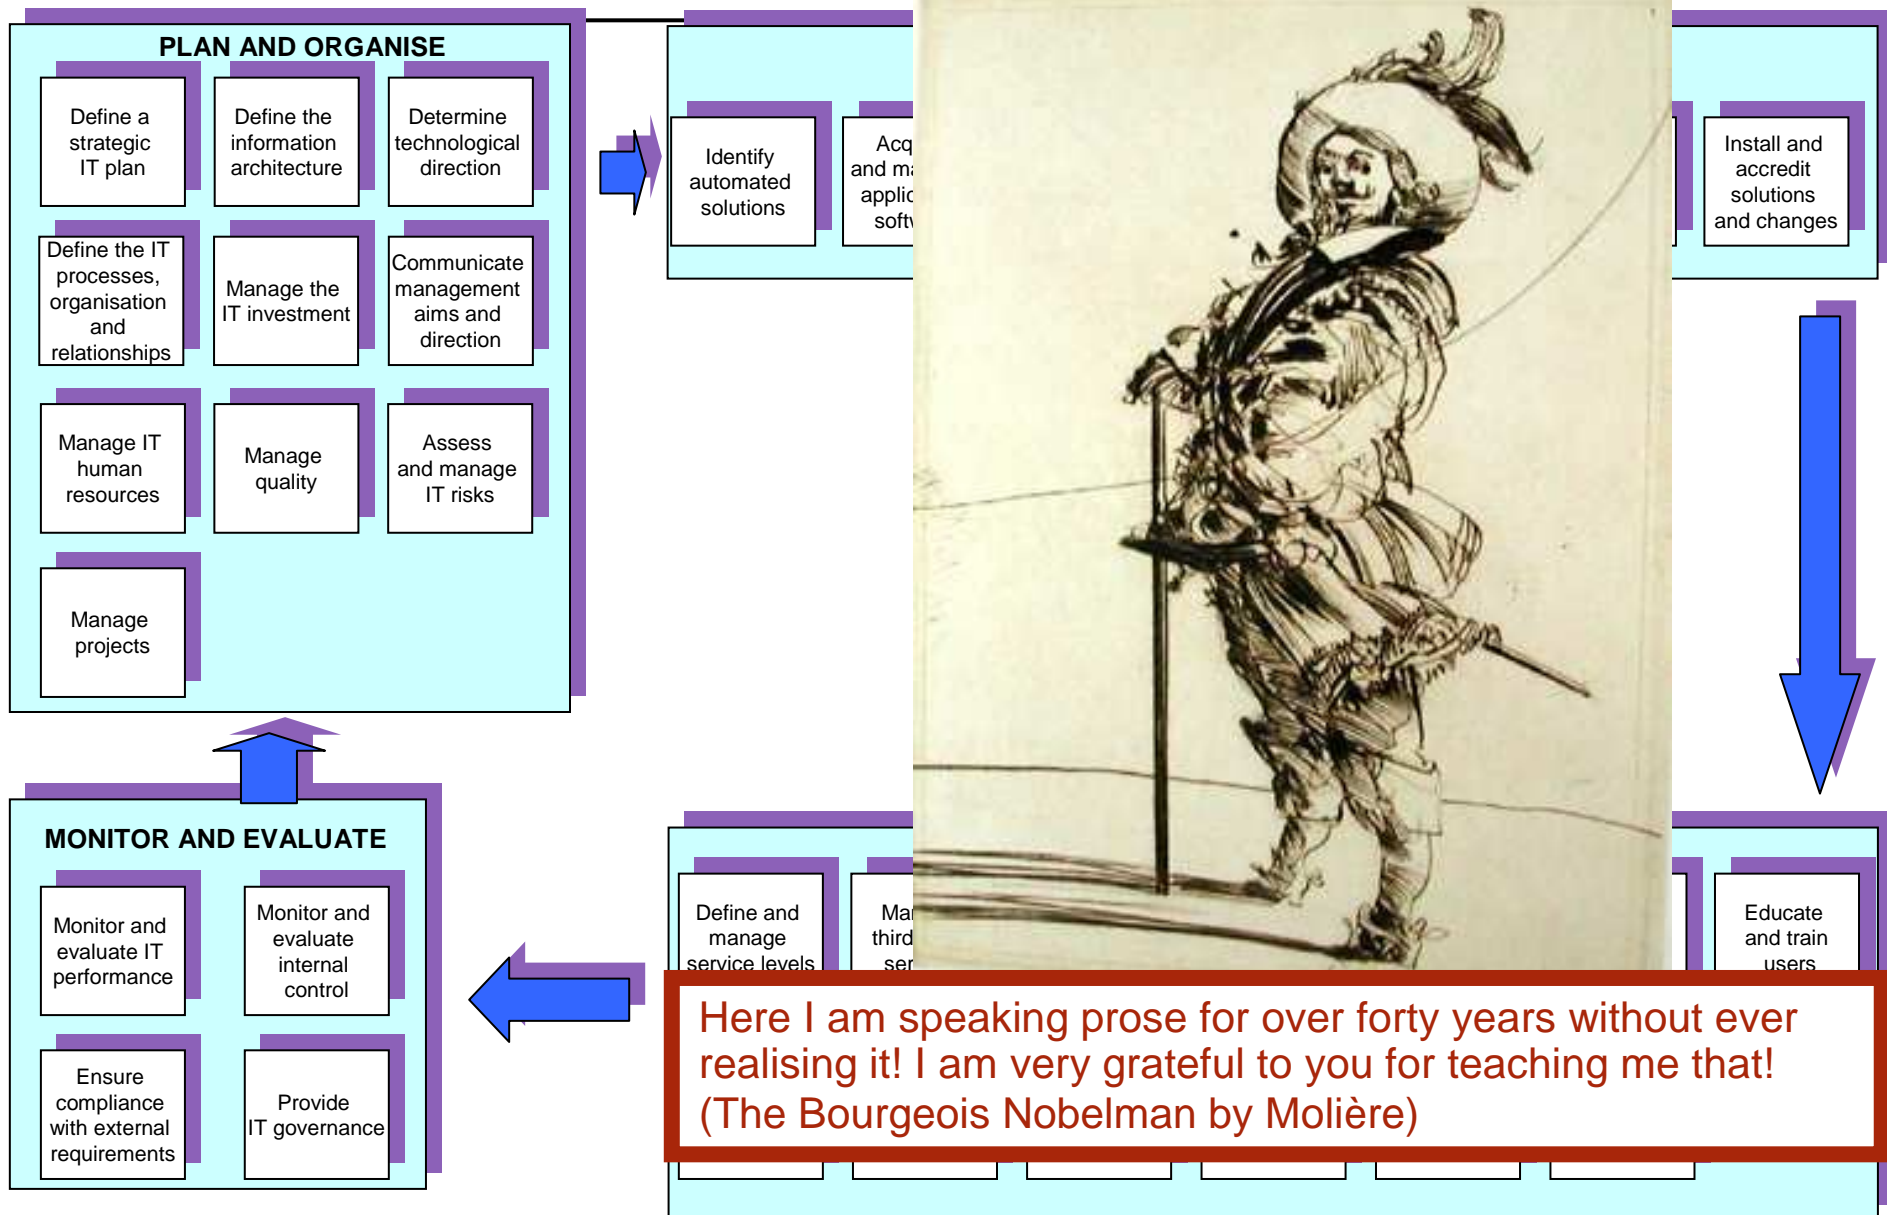

Provide a comprehensive framework for the governance of IS

COBIT is the standard that specifies the framework.

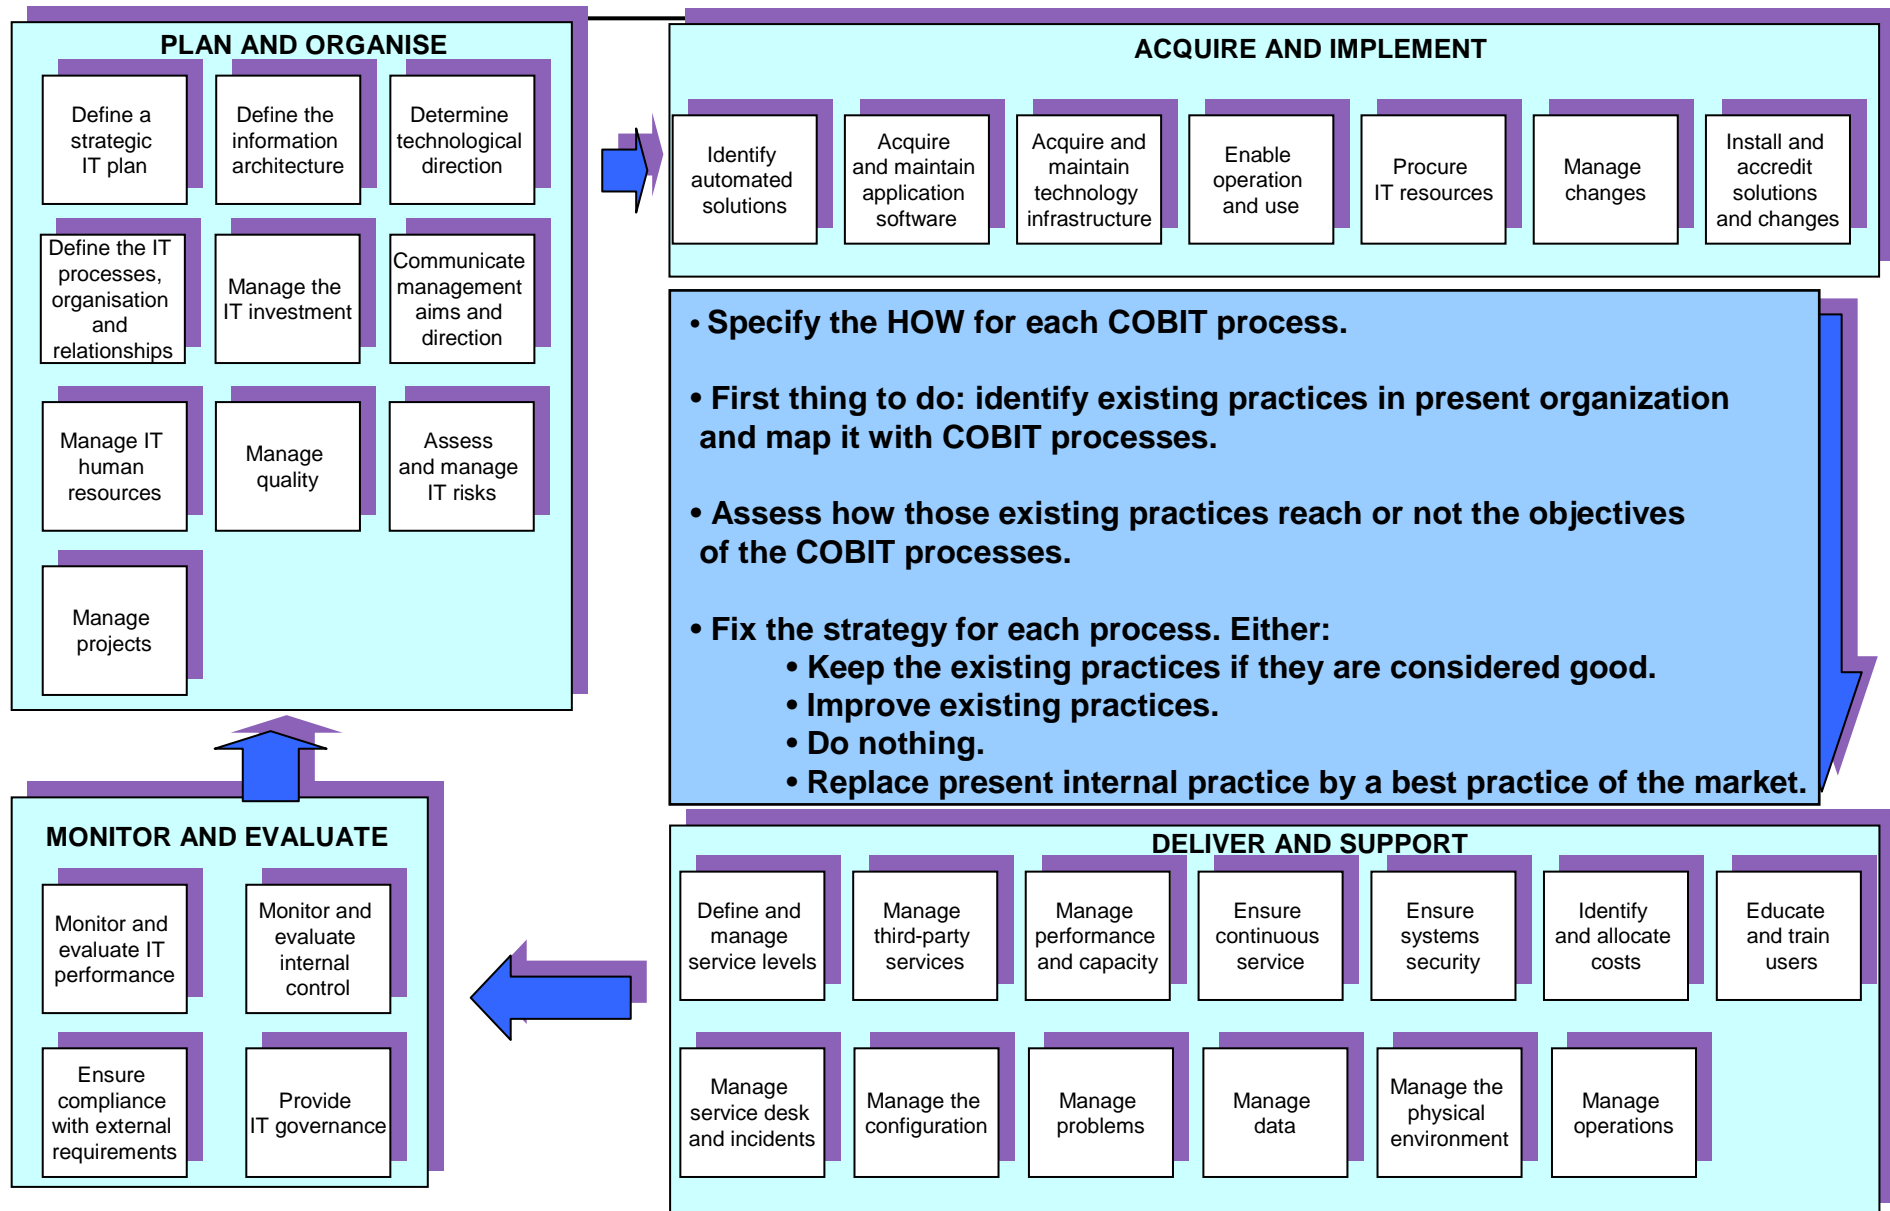

Feed practices into the framework.

« Doing Things Right ».

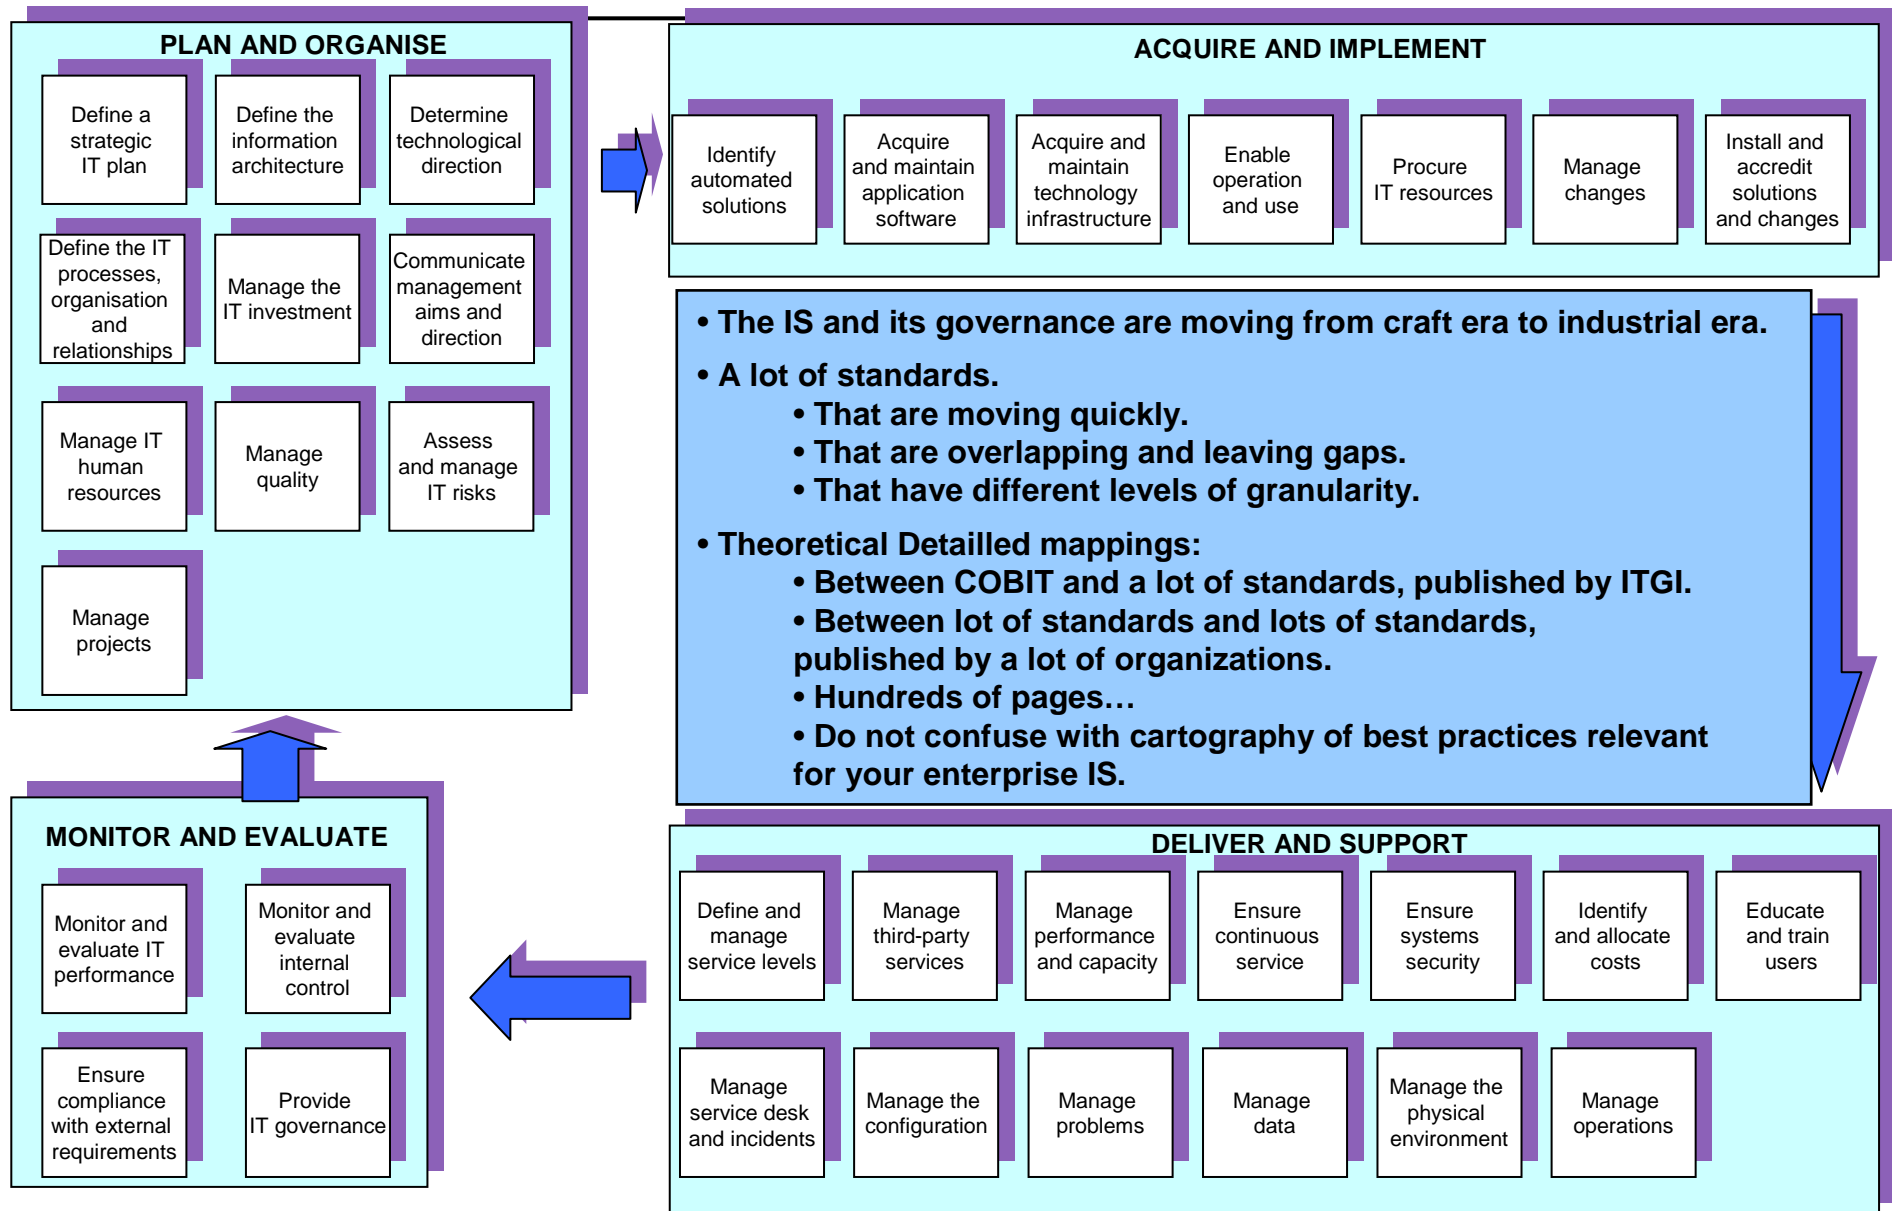

Here I am speaking prose for over forty years without ever realising it! I am very grateful to you for teaching me that!
 (The Bourgeois Nobelman by Molière)

Feed practices into the framework. Reuse internal practices.

Feed practices into the framework.

Standards, frameworks, ...

Feed practices into the framework.

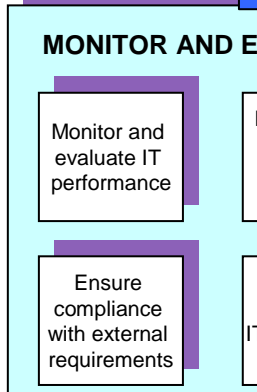

Adopt the most widely used standards on the market if they are useful for your IS.

All standards have not the same:

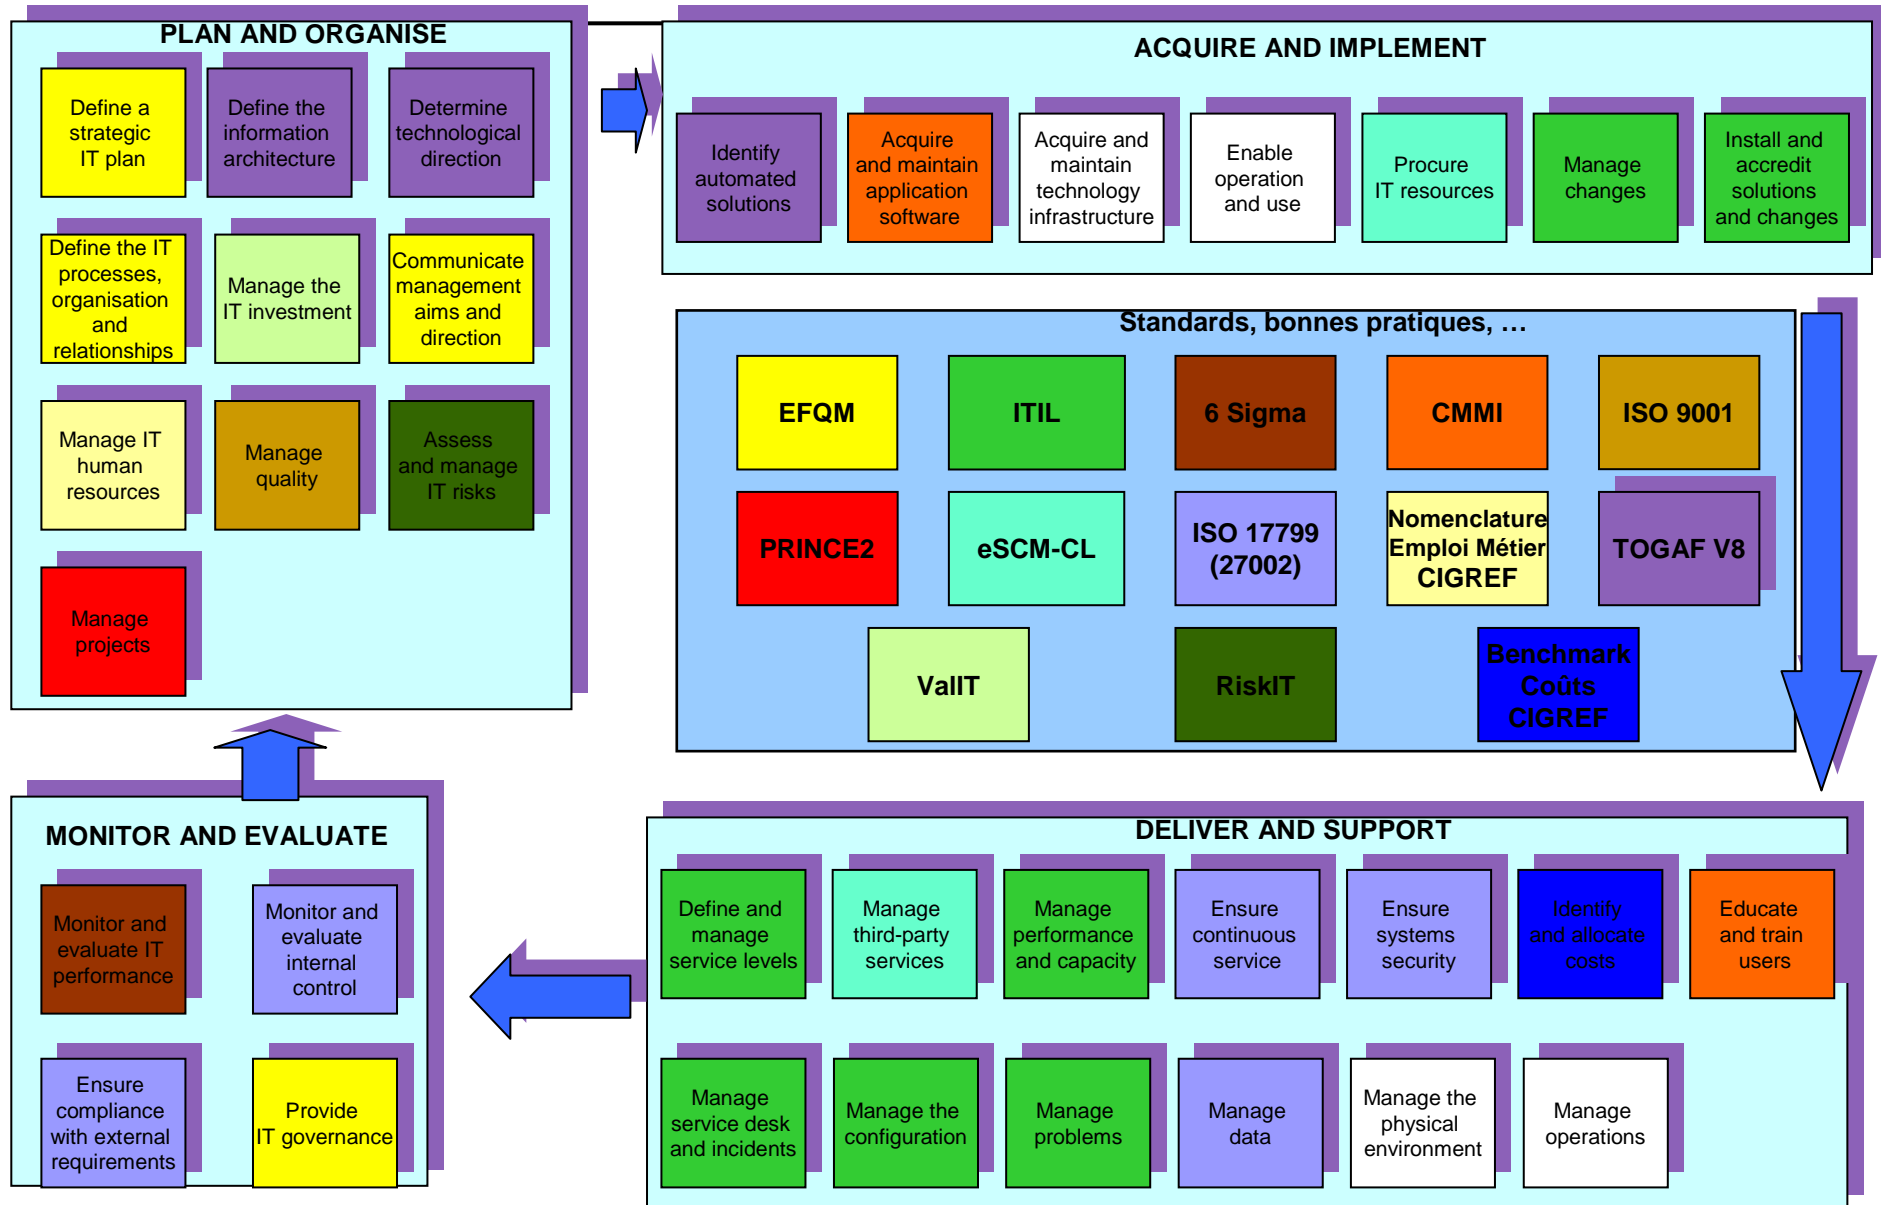

- Targeted audience.
 - Enterprise IS
 - Service organizations
 - Software intensive development organizations
 - ...
- Entry point (Size of the enterprise).
- Level of diffusion.
- ...

All parts of the standards have not the same level of adoption.

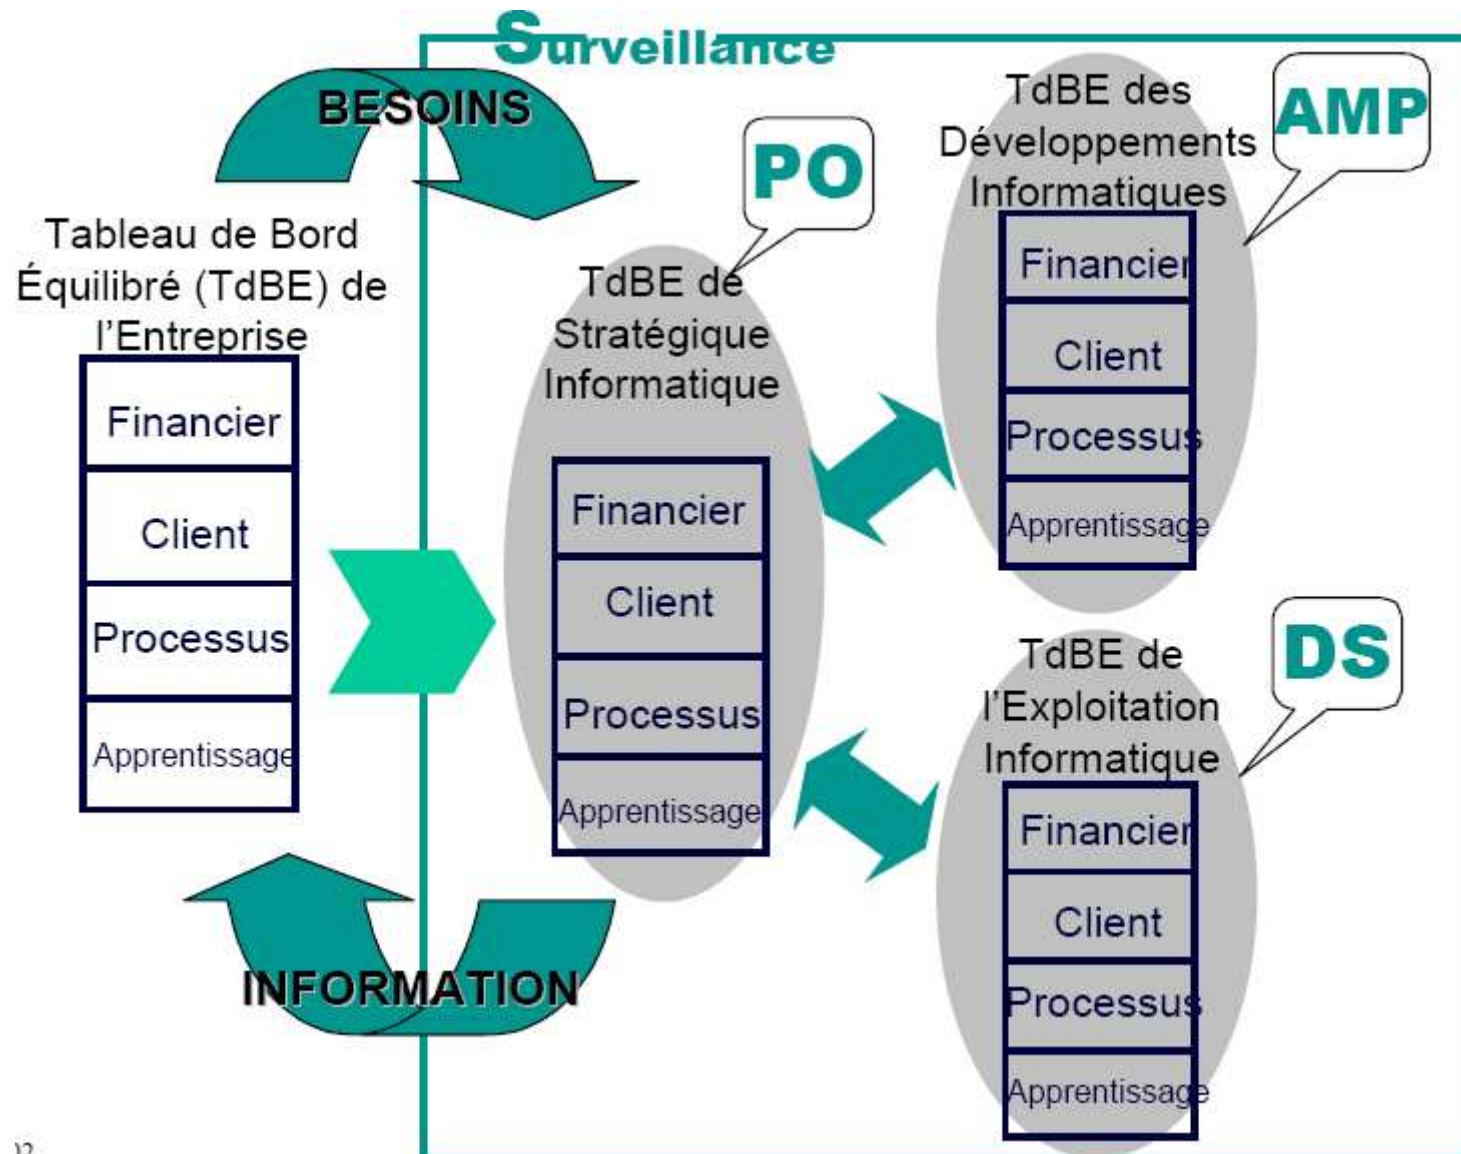

Feed practices into the framework.

Adopt the most widely used standards on the market if they are useful for your IS.

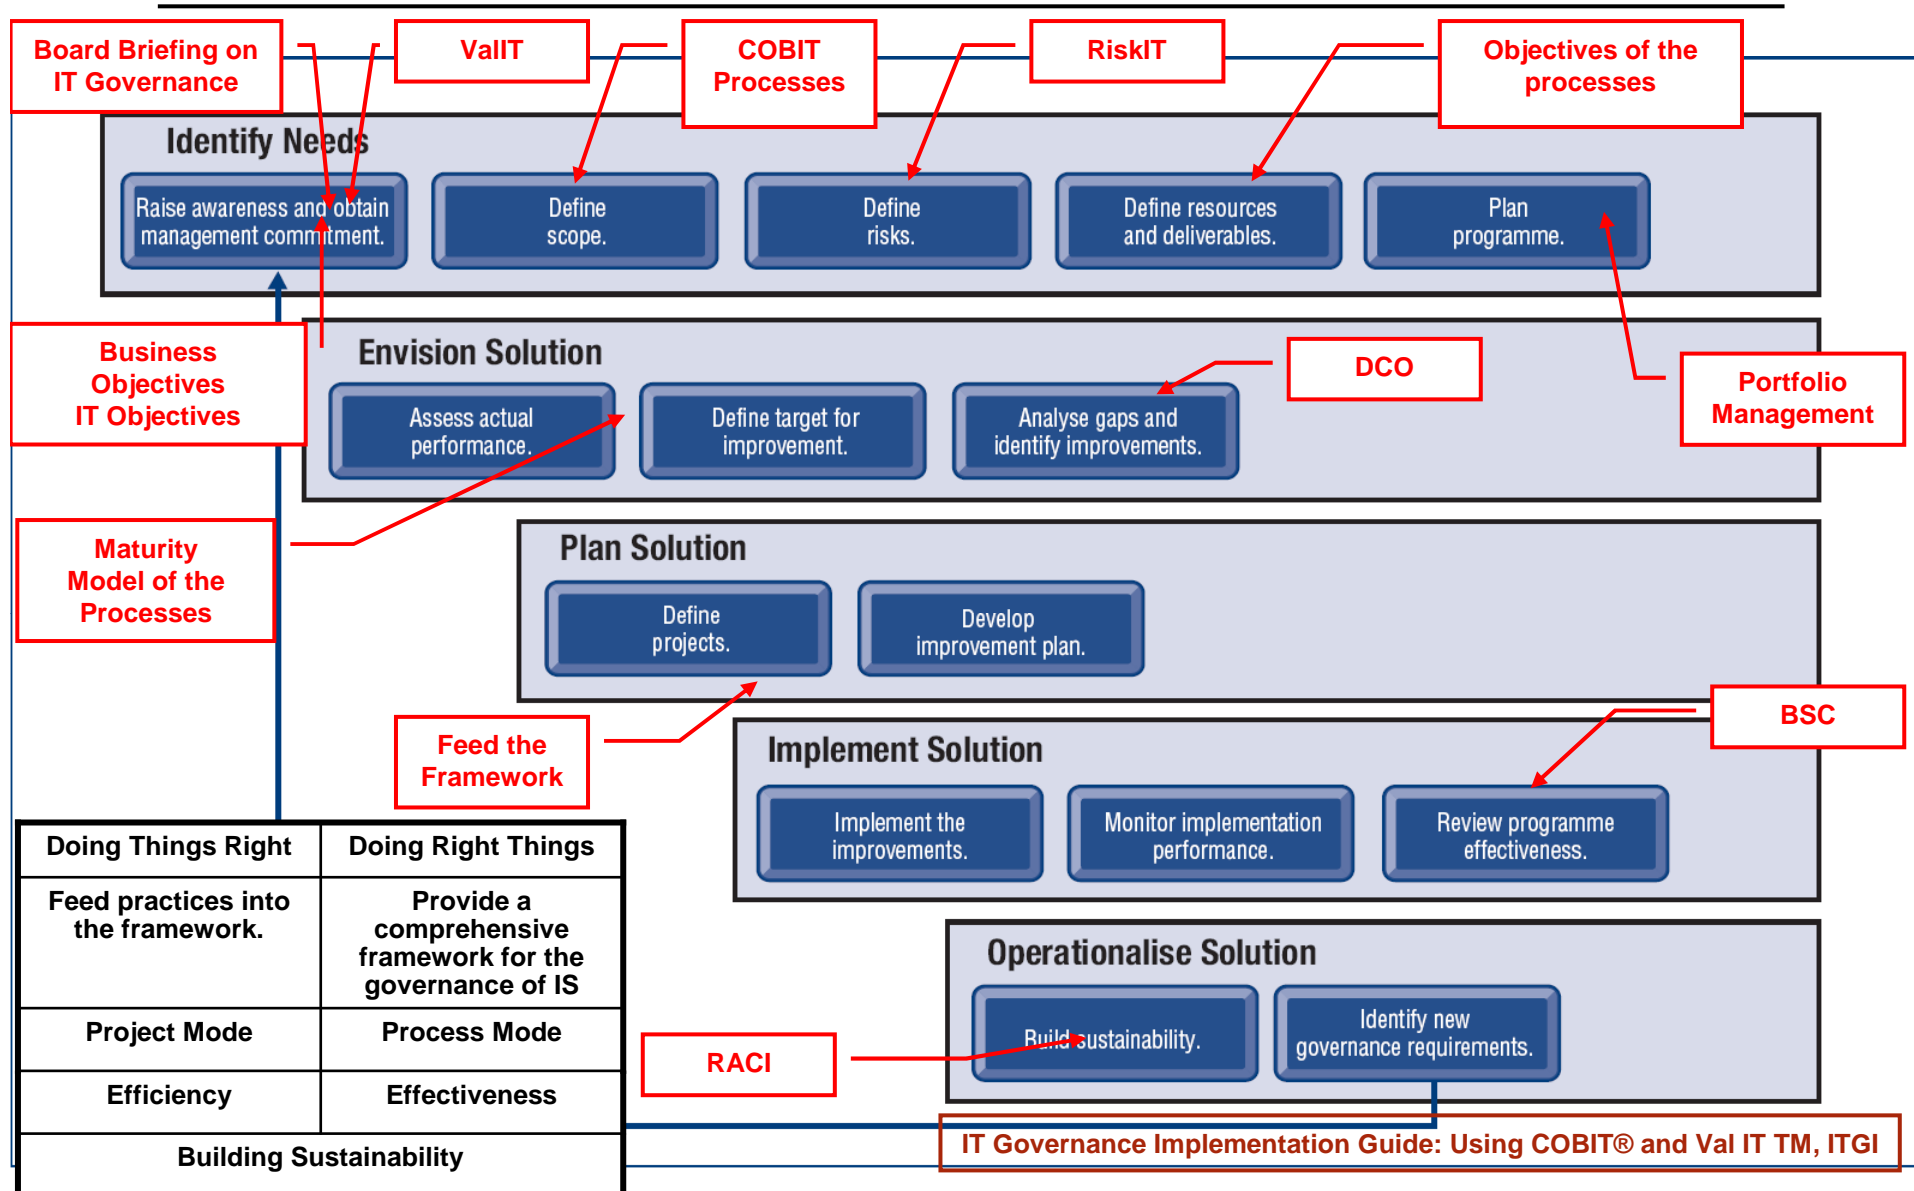

Make coherence between BSC and IT Governance.

The Road Map to IT Governance.

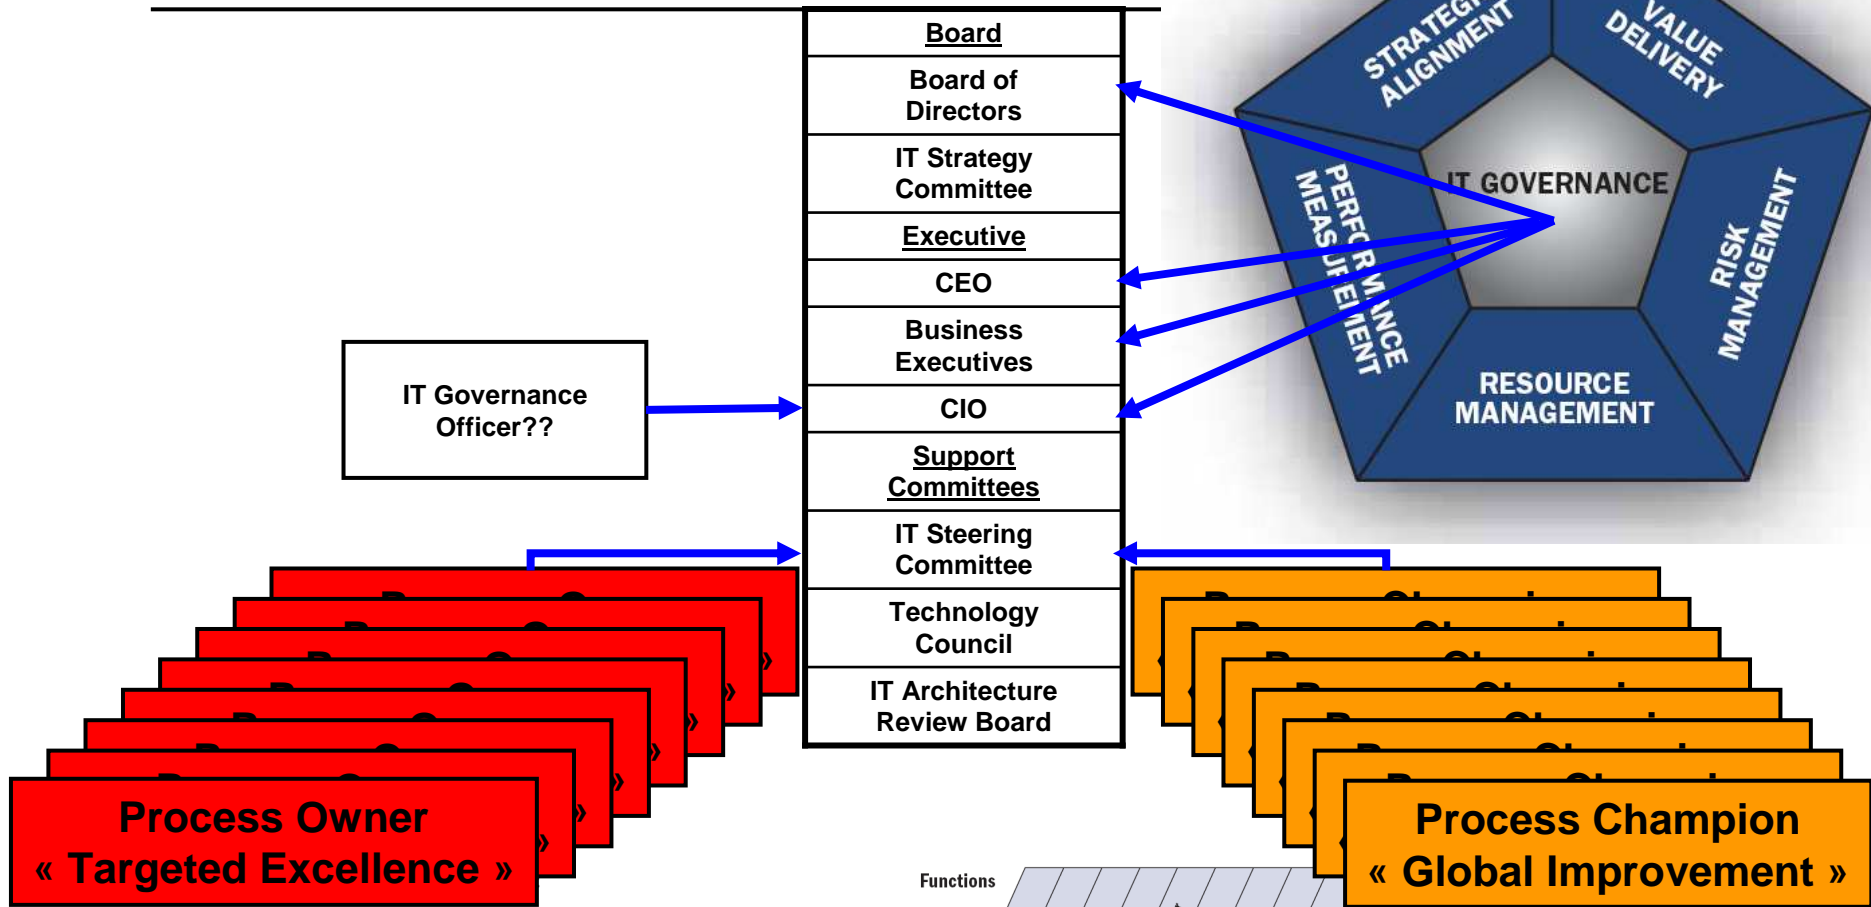

The road map and the components of COBIT.

Two possible strategies.

<u>Strategy</u>	<u>Targeted Excellence</u>	<u>Global Improvement</u>
COBIT processes	Chosen according to the objectives and context of the business and available energy for COBIT.	All others COBIT processes.
COBIT is...	The framework for the Governance of the IS.	A common language for the stakeholders of the IS.
Target of Maturity	Level 4 : Managed and Measurable. (Level 5: Optimised for ME)	Level 3 : Defined.
Approach	Organized.	"Participatory".
Responsibilities	Process Owners and typology of responsibilities.	Process Champions.
Metrics	KGI, KPI	-
Financing	Specific	-
Approach	Top-Down.	Bottom-Up.
Planification	Road Map	-
Progress rate	Max 1 maturity level / year	Max 1/2 maturity level / year

Organize your IT Governance

RACI Chart

-Top NON IT Executives
 -250 Interviews
 -Asia-Pacific, Europe, North America and South America
 -May / August 2008

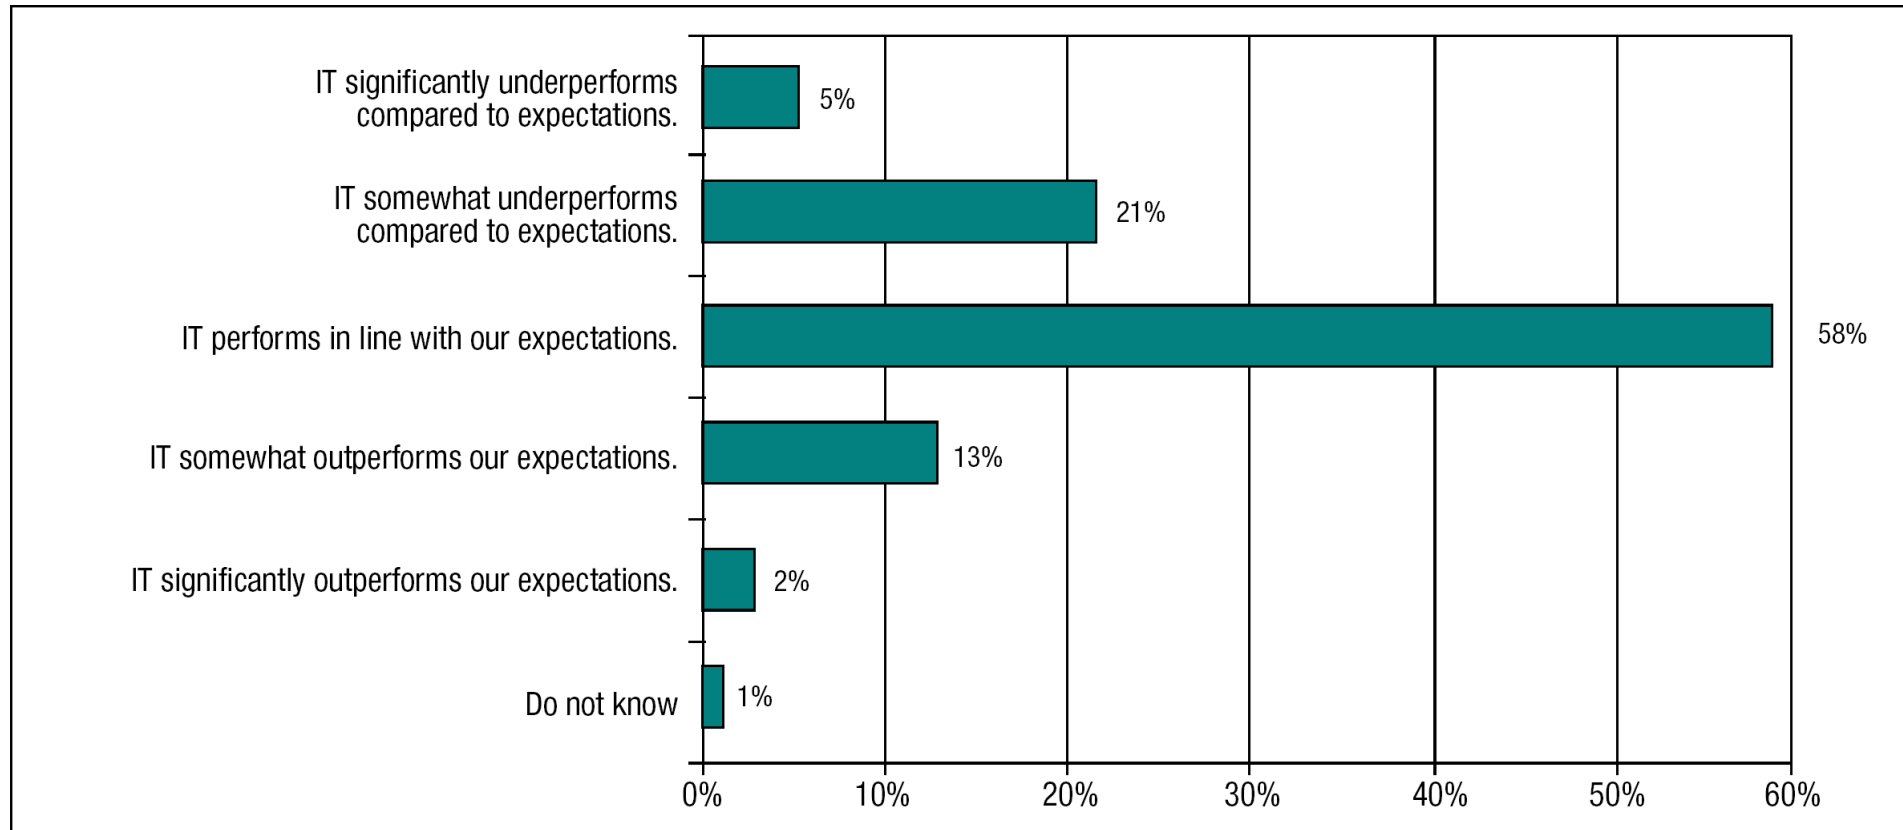

Size of enterprises:
 - Half from small firms (defined as having 100-500 employees)
 - Half from large firms (more than 500 employees)
 -Firms smaller than 100 employees were not deemed suitable targets for this research.

Sector of activity:
 - Nearly half in manufacturing
 - 14 percent in professional services
 -The remaining split approximately equally amongst IT/telecoms, financial services, retail, transportation and other.

Benchmark your IT Governance.

An Executive View of IT Governance – 2009, ITGI Profiles and Behaviours of Strategists and Operators

	Strategist	Operator
Who are they?		
Size of company	Size not a factor	Size not a factor
Region	More likely to be based in Europe	More likely to be based in North America and Asia
What defines them?		
Perception of IT governance maturity	More likely to have implemented IT governance	Tend to still be at the initial stage
Appearance of IT on board agenda	Twice as likely to have IT routinely on board agenda	Not as likely to have IT routinely on board agenda
Focus of board discussions on IT	Twice as likely to be concerned about risk	Not as likely to appreciate the risk involved with IT
Champions for IT governance	More likely to have board or C-suite championing IT governance	Less likely to have board or C-suite championing IT governance
Accountability for IT investments	More likely to have executive management identifying investment opportunities and selecting investments	Not as likely to have executive management identifying investment opportunities and selecting investments
Barriers to realising full value from IT investments	Less likely to have difficulty in implementing applications	More likely to have difficulty in implementing applications
Inclusion of CIO on executive team	CIO more likely to be on executive team	CIO is less likely to be on executive team
Awareness of IT governance frameworks or standards	More likely to be aware of frameworks for IT governance	Less likely to be aware of frameworks for IT governance
Source of IT governance advice and solutions	More likely to look outside the enterprise for IT governance advice and solutions	More inclined to be inward-looking for IT governance solutions

SAVE XX, December 7th, 2009. Agenda.
